Restorative and Implants with Dr Manoj Patel BDS (Guy's) MFDS RCPS (Glasg) MClintDent (Lond) MRD (Edin) Specialist in Prosthodontics

Manoj specialises in improving the appearance of teeth to give patients a more confident smile. He provides specialist care such as dental implants, full mouth reconstructions and advanced restorative treatments to not only Pennypot patients but also practices in Kent through referrals. He is also able to offer treatments under sedation for nervous patients.

Manoj graduated from Guys Dental Hospital and has been at Pennypot Dental practice since 1999. His first job was working at Guys Dental hospital treating difficult dental cases. Whilst working at Pennypot and treating patients, he completed the Specialist Registrar Training programme in Restorative Dentistry at Guys.

Endodontics with Dr Steve Williams BDS (Lond) MFDS RCPS (Glasg) MClintDent MRD RCS (Lon) Specialist Endodontist

A root canal treatment is one of the most complex dental procedures carried out. This treatment can save your natural teeth and prevent the need for bridges or dental implants. As a registered Specialist Endodontist with the General Dental Council, Dr Williams is in a position to provide an exceptional level of care in root canal treatment using the latest proven technology which can result in the long term retention of the tooth in question.

Steve qualified in 1998 from Guys' Hospital Dental School. He then obtained his Master of Restorative Dentistry in Endodontology (MRD) from the Royal College of Surgeons of Edinburgh and was awarded a distinction in his Master of Clinical Dentistry in Endodontology (MClintDent) from the University of London. As such he is the only Specialist Endodontist (Root Canal Specialist) with these qualifications working in East Kent.

Oral Surgery with Dr Rajagopal Arulnathan BDS(SL)MS(SL)FDRCS(UK) Specialist Oral Surgeon

After graduating from Sri Lanka in 1982, Raj practised oral surgery and took a Masters in Oral Surgery followed by a FDRCS in the UK. He has been working at Pennypot since 2003. Raj treats patients at Pennypot Dental and accepts referrals from practices across Kent for Oral Surgery, wisdom teeth and complicated extractions, apicectomies and sedation for nervous patients.

A member of staff will be in contact with you in due course. In the mean time feel free to find out more on our website www.pennypotdental.co.uk.
